## Overview of the HCI Spectroscopy Program at the NIST Electron Beam Ion Trap

### Keywords

EBIT  
Mid- and high-Z elements  
EUV and x-ray spectra  
Collisional-radiative modeling

### Topics

Fundamental Aspects, Structure and Spectroscopy

**Primary authors:** RALCHENKO, Yuri (NIST); Dr DIPTI (National Institute of Standards and Technology); BOROVNIK, Alexander (Justus-Liebig-Universität Gießen); Dr DREILING, Joan (National Institute of Standards and Technology); GALL, Amy (Clemson University); Dr GILLASPY, John (National Science Foundation); KILBANE, Deirdre (Univ College Dublin); NAING, Aung Sis (University of Delaware / NIST); Dr NORRGARD, Eric (National Institute of Standards & Technology); OSIN, Dmitry (TAE Technologies); PODPALY, Yuri (LLNL); READER, Joseph (NIST); SANDERS, Samuel (Clemson University); SMALL, Angela (University of Maryland at College Park); TAKACS, Endre (Clemson University / NIST); TAN, Joseph (National Institute of Standards and Technology)

**Presenter:** RALCHENKO, Yuri (NIST)
