Type: Poster

Relativistic Computing Excited and Autoionizing States Spectroscopic Parameters for He-like Multicharged Ions

Keywords

Relativistic Computing
Autoionizing States
He-like Multicharged Ions

Topics

Fundamental Aspects, Structure and Spectroscopy

Primary authors: Mr TERNOVSKY, Eugeny (Odessa State Environmental University); Dr TERNOVSKY, Valentin (Odessa State Environmental University); Prof. SVINARENKO, Andrey (Odessa State Environmental University); Dr TKACH, Tatyana (Odessa State Environmental University)

Presenter: Mr TERNOVSKY, Eugeny (Odessa State Environmental University)
