Type: Poster

Coincidence Measurements of Scattered and Desorbed Ions from Solid Ne Surfaces by Slow Arq+ Ion Impact

Keywords

Rare gas solids, Potential sputtering, Coincidence measurement, Gas flow model

Topics

Interaction with Clusters, Surfaces and Solids

Primary author: Mr SAWA, Hiroyoshi (Department of Physics, Rikkyo University)

Co-authors: Mr UCHIDA, Shuntarou (Department of Physics, Rikkyo University); Dr UETA, Hirokazu (Department of Physics, Rikkyo University.); Prof. HIRAYAMA, Takato (Department of Physics, Rikkyo University)

Presenter: Mr SAWA, Hiroyoshi (Department of Physics, Rikkyo University)
