

Contribution ID: 23

Type: Poster

Radiative and Auger rates for highly-ionized iron K-lines under dense astrophysical plasma conditions

Keywords

Plasma effects
Iron K-lines
Radiative and Auger rates

Topics

Interactions with Photons and Plasmas

Primary author: DEPRINCE, Jérôme (Université de Mons (Belgium))

Co-authors: Prof. BAUTISTA, Manuel (Western Michigan University (Kalamazoo, USA)); Prof. FRITZSCHE, Stephan (Helmholtz-Institut Jena (Germany)); GARCIA, Javier (California Institute of Technology (Pasadena, USA)); KALLMAN, Tim (NASA Goddard Space Flight Center (Greenbelt, USA)); PALMERI, Patrick (Université de Mons (Belgium)); QUINET, Pascal (Université de Mons & Université de Liège (Belgium))

Presenter: DEPRINCE, Jérôme (Université de Mons (Belgium))
