

Contribution ID: 38

Type: Oral

Dissociative Ionization of the H₂O Molecule Induced by MeV-energy Bare and Partially Screened Projectiles

Keywords

molecule
ionization
fragmentation
dissociation
ion impact

Topics

Collisions with Electrons, Ions, Atoms and Molecules

Primary author: Dr KOVÁCS, Sándor (Institute for Nuclear Research, Hungarian Academy of Science (MTA Atomki))

Co-authors: Mr HERCZKU, Péter; Dr JUHÁSZ, Zoltán; Dr SARKADI, László; Dr GULYÁS, László; Dr SULIK, Béla

Presenter: Dr KOVÁCS, Sándor (Institute for Nuclear Research, Hungarian Academy of Science (MTA Atomki))
