Multiconfiguration Dirac-Hartree-Fock Energy Levels and Transition Data for As XIX, Kr XXII, and Mo XXVIII Ions

Keywords

Energy levels,
transitions data,
P-like isoelectronic sequence

Topics

Fundamental Aspects, Structure and Spectroscopy

Primary authors: Dr RADŽIŪTĖ, Laima (Institute of Theoretical Physics and Astronomy, Vilnius University); Prof. GAIGALAS, Gediminas (Institute of Theoretical Physics and Astronomy, Vilnius University); Dr RYNKUN, Pavel (Institute of Theoretical Physics and Astronomy, Vilnius University); Dr JÖNSSON, Per (Group for Materials Science and Applied Mathematics, Malmö University)

Presenter: Dr RADŽIŪTĖ, Laima (Institute of Theoretical Physics and Astronomy, Vilnius University)
