Proton Collision With Nitrogen Gas By Using Time-dependent Density Functional Theory

Keywords

Cross sections, time-dependent density functional theory, Nitrogen gas, KeV

Topics

Collisions with Electrons, Ions, Atoms and Molecules

Primary authors: Mr YU, Wandong (Fudan university); Dr GAO, Congzhang (Institute of Applied Physics and Computational Mathematics); Mr JIANG, Tiantian (Fudan university); Prof. HUTTON, Roger (Fudan university); Prof. ZOU, Yaming (Fudan university); Prof. WEI, Baoren (Fudan university)

Presenter: Prof. WEI, Baoren (Fudan university)
