

Contribution ID: 79

Type: Poster

Double Differential Cross Section Measurement of Electron Emission from Fluorene Molecule Upon Ion Impact

Keywords

PAH, Fluorene, Collective excitation, DDCS

Topics

Collisions with Electrons, Ions, Atoms and Molecules

Primary authors: Mr BAGDIA, Chandan (Department of Atomic and Nuclear Physics, Tata Institute of Fundamental Research, Dr. Homi Bhabha Road, Colaba, Mumbai –400005, India); Prof. TRIBEDI, Lokesh C. (Department of Atomic and Nuclear Physics, Tata Institute of Fundamental Research, Dr. Homi Bhabha Road, Colaba, Mumbai –400005, India)

Co-authors: Dr MANDAL, Anuvab (Department of Atomic and Nuclear Physics, Tata Institute of Fundamental Research, Dr. Homi Bhabha Road, Colaba, Mumbai –400005, India); Mr BHATTACHARJEE, Shamik (Department of Atomic and Nuclear Physics, Tata Institute of Fundamental Research, Dr. Homi Bhabha Road, Colaba, Mumbai –400005, India); Ms ROYCHOWDHURY, Madhusree (Department of Atomic and Nuclear Physics, Tata Institute of Fundamental Research, Dr. Homi Bhabha Road, Colaba, Mumbai –400005, India); Dr NRISIMHAMURTY, Madugula (Department of Atomic and Nuclear Physics, Tata Institute of Fundamental Research, Dr. Homi Bhabha Road, Colaba, Mumbai –400005, India); Dr MISRA, Deepankar (Department of Atomic and Nuclear Physics, Tata Institute of Fundamental Research, Dr. Homi Bhabha Road, Colaba, Mumbai –400005, India)

Presenter: Prof. TRIBEDI, Lokesh C. (Department of Atomic and Nuclear Physics, Tata Institute of Fundamental Research, Dr. Homi Bhabha Road, Colaba, Mumbai –400005, India)
