Type: Poster

A Dual-Anode Miniature Electron Beam Ion Trap to Produce and Extract Highly-Charged Ions with Low Ionization Threshold

Keywords

mini-EBIT
HCI
permanent magnet ion trap
ion trap
spectroscopy
EBIT

Topics

Production, Experimental Developments and Applications

Primary authors: NAING, Aung Sis (University of Delaware / NIST); TAN, Joseph (National Institute of Standards and Technology)

Presenter: NAING, Aung Sis (University of Delaware / NIST)
