# Ionization, Capture and Transfer-Ionization Processes of Ar Targets by Proton and Antiproton Impact

## Keywords

Multiple ionization  
Electron capture  
Transfer-ionization

## Topics

Collisions with Electrons, Ions, Atoms and Molecules

**Primary authors:** Dr TEREKHIN, Pavel (Department of Physics and Research Center Optimas, Technical University of Kaiserslautern; National Research Centre “Kurchatov Institute”, Kurchatov Sq. 1, 123182 Moscow, Russia); QUINTO, Michele (Instituto de Física Rosario (IFIR/CONICET)); MONTE, Juan Manuel (Instituto de Física Rosario - CONICET-UNR); Dr FOJÓN, Omar (Instituto de Física Rosario (IFIR/CONICET), Rosario, Argentina); Dr RIVAROLA, Roberto (Instituto de Física Rosario (IFIR/CONICET), Rosario, Argentina)

**Presenter:** Dr TEREKHIN, Pavel (Department of Physics and Research Center Optimas, Technical University of Kaiserslautern; National Research Centre “Kurchatov Institute”, Kurchatov Sq. 1, 123182 Moscow, Russia)
