Type: Poster

Measuring The Electron Magnetic Moment In Highly Charged Ions Via Laser-Microwave Double-Resonance Spectroscopy And Studying The Behaviour Of Ion Ensembles In A Penning Trap

Keywords

electron g factor
magnetic moment
Penning trap
double-resonance spectroscopy
highly charged ions
ion ensembles
laser microwave

Topics

Fundamental Aspects, Structure and Spectroscopy

Primary authors: Mr GUO, Zhexi (GSI Helmholtzzentrum für Schwerionenforschung GmbH); Mr BAUS, Patrick (Institute for Applied Physics, TU Darmstadt); Mr BIRKL, Gerhard (Institute for Applied Physics, TU Darmstadt); Mr EBRAHIMI, Mohammad Sadegh (GSI Helmholtzzentrum für Schwerionenforschung GmbH); Dr QUINT, Wolfgang (Physikalisches Institut, Ruprecht Karls-Universität Heidelberg); Mr VOGEL, Manuel (GSI Helmholtzzentrum für Schwerionenforschung GmbH)

Presenter: Mr GUO, Zhexi (GSI Helmholtzzentrum für Schwerionenforschung GmbH)
