

# DanScatt, the Danish model for supporting access to Large-Scale Research Facilities

Kim Lefmann<sup>a</sup> & Martin Meedom Nielsen<sup>b</sup>

<sup>a</sup>*Niels Bohr Institute, University of Copenhagen, Denmark*

<sup>b</sup>*Department of Physics, Technical University of Denmark, Denmark*

*lefmann@nbi.ku.dk*

**Keywords:** Large-scale facility, Neutron, X-ray, access

The organization DanScatt represents all researchers in Denmark using synchrotron X-rays, X-ray Free-Electron Lasers, and neutron facilities. DanScatt is both a political entity with direct contact to the Danish Ministry of Higher Education and Science, and a research grant supporting costs of the researchers traveling to facilities outside Denmark. We here present the structure and activities of DanScatt.
